*All plans in Riverdale Peaks come standard with partial unfinished basements.*

*We are a semi-custom home builder. We will happily make changes to our floor plans to meet your family's needs for a design fee. We will finish basements to your specifications. Our garages are already at a minimum 22 feet deep, but we will customize yours to fit boats, large trucks, work shops, etc. We will keep you involved in the building process—from deciding which plan on which site, how your home will sit on your site, and meeting with all of our designers to personalize your new home.*

2017 information and specifications contained herein subject to change without notice.
